

SAPC- 12691
Copy 2 of 4

30 January 1957

The Perkin-Elmer Corporation
Norwalk, Connecticut

25X1

Gentlemen:

1. This document constitutes a statement of equipment and other material developed or resulting from Contract SC-21-54.
2. The Tracking Camera Model 151 shall be "unclassified" and distribution and/or discussion of it shall not be restricted in a security sense.
3. The Instruction Manual titled "MODEL 151 TRACKING CAMERA" shall be "unclassified" and distribution and/or discussion of it shall not be restricted in a security sense.
4. The relationship of the Tracking Camera and other material resulting from these contracts to the Air Force "development program" shall be classified "confidential".
5. The association of the Tracking Camera to the air frame and other subsystems developed by this project shall be classified higher than the clearances of any non-project cleared persons to whom you may wish to speak. The same security restrictions apply to any data on aircraft performance, details of test program, and association of this project group with the equipment or contracts.
6. This document, because of security information stated in it, is classified "secret" and shall not be distributed or discussed with non-project cleared personnel.
